

**University of Illinois Medical Center**  
**\$40 Million Modernization Project**  
**Chicago, Illinois**  
**Completion Date: 2012**

**UNIVERSITY OF ILLINOIS**  
Hospital & Health Sciences System  
— Changing medicine. For good. —

Dynamix Engineering worked in conjunction with KJWW Engineering on this expansive modernization and remodeling project. Dynamix was responsible for interior renovations in several areas including the kitchen, morgue and stem cell lab. Dynamix also integrated short-stay, pre and post operating recovery areas, and an operating room of the future into the existing building. Finally, Dynamix is designed a building-wide temperature controls upgrade, replacing pneumatic controls with DDC. The project is LEED Silver Certified.

**Dynamix Engineering's Role on the Project:**

- Full-Service Engineering Including Mechanical, Electrical, Plumbing and Technology Engineering
- Construction Administration
