

CAPABILITY STATEMENT

CAGE Code: #3GX93
Dun & Bradstreet: #171942170

Dynamix Engineering, Ltd. Successfully combines leading edge engineering and technology design services with speed-to-market delivery systems (web-based communication tools, formalized quality control/quality assurance processes and value-added best practices) to create healthy indoor environments that exceed our client's expectations. Founded in 1997, we are a full service mechanical, electrical, plumbing, and technology engineering firm specializing in design engineering and systems assessments. Our design team includes **Professional Engineers, NCEES Record Holders, LEED Accredited Professionals, Green Globe Professionals, Certified Energy Managers and Auditors, Registered Communication Distribution Designers, Certified Plumbing Designers, and Qualified Commissioning Process Providers.**

Our Services

- HVAC Systems

- Commissioning & Assessments
- Construction Management MEPT Support Service & Cost Estimating
- LEED & Sustainability Consulting
- Master Planning

NAICS Codes

- 541330 - Engineering
- 541340 – Drafting Services
- 541512 – Computer Systems Design Services
- 541690 – Other Scientific and Technical Consulting Services

Certifications

- SBA Certified
- MBE Certified
- State of Ohio Unified Certification Program
- National Minority Supplier Development Council

What makes Dynamix Engineering Unique?

Dynamix has a culture of innovation and continuous improvement. Part of this culture is derived through our Quality Assurance/Quality Control (QA/QC) process which ensures that the highest quality documents are produced and issued. During the QA/QC process, drawings are reviewed for completeness, accuracy, use of standards, constructability and other key items. Each phase of a project is assessed by a peer. Before a project leaves the office, a thorough review from Team Leaders and Senior Management is done. Additionally, we convene an in-house design charrette for projects where the **owner/client is welcome as part of the process at no cost.**

K-12 Schools – Over 400 Projects
